Office Action Summary

Art Unit: 1772

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

2. (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 29-39, 42, 44-52 and 56-59 areb rejected under 35 U.S.C. 102(b) as being anticipated by Sextl et al as presented in the first office action, mailed March 21, 2001.

4. Claims 29, 40, 41, 43, 52, 53, 54, 55, 58 and 59 are rejected under 35 U.S.C. 102(b) as being anticipated by Rutter et al or McDuff as presented in the first office action referred to above.

5. Applicant's arguments filed June 25, 2001 have been fully considered but they are not persuasive. The applicant argues that the prior art's heat shields are not "plastically deformable" (i.e. flexible). However, from the first word of the title in McDuff and column 1, lines 10-16 in Rutter et al it is disclosed that the shields are flexible, therefore meeting the "plastically deformable" In column 3, line 27 in Sextl et al metal foils are disclosed for the outer plates. Metal foils are inherently flexilble and meet the "plastically deformable" limitation, especially since almost any thing can be bent it enough pressure is applied to it.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO**

Art Unit: 1772

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
